The Medical Escort Transportation Pilot Project begins NOW. The impact this program will have on Lifespan goes far beyond just MET. This is a significant moment in the future of Lifespan Resources. Let me tell you ALL about it!!

You know we have been working to recruit drivers for our MET Program—for two equally important reasons.
⇒ First, we continue to receive requests for services (we have 19 new applications right now)
⇒ Second, everyone in the community has consistently identified transportation as one of the most significant needs of older adults in the Atlanta area.

You may also know that we have been working hard to secure grant funding for our program. While those efforts did not result in increased funding, they did result in increased clarity. That clarity is the impetus behind the MET Angel Fund Raising Campaign and the MET Pilot Project.

You might be asking, if the community sees transportation as one of the most important needs of older adults in Atlanta, why were we not successful in securing additional funding. There are two important reasons.
⇒ First, we are a small nonprofit who has been serving a small group of elders and we have no track record with applying for and securing grants.
⇒ Second, we think our program is a unique volunteer, escorted, transportation program. We believe the key to our ability to grow this program is a focused, targeted volunteer recruitment effort. Funders are waiting for us to demonstrate that our model can be effective.

So, staff proposed the MET Pilot Project and the Board of Directors agreed to move forward! You can see the full PowerPoint of the presentation on our website under MET if you would like the details. The bottom line is that we will be adding an additional part time staff member and Zandra, who all of you know, will be assuming the responsibilities for Volunteer Coordination. This effort will allow us to grow our MET program by recruiting more drivers, which allows us to serve more riders, which in turn expands our service areas, rides and days we drive. It is a vision we believe in and we are now taking the leap to test it.

Lifespan is way too small to think about one element of our work in isolation of the other. Things will be changing in the next few weeks. We will have a new face joining us, as our Program Coordinator and Zandra, the Volunteer Coordinator, will be out in the community recruiting, building and working for Lifespan. But know that all of these efforts are about the totality of Lifespan Resources. Zandra will be talking about all of Lifespan when she is out in the community. And our new Program Coordinator will be working with the MET riders as well as working on Lifespan Academy.

SO BE A PART OF THIS EXCITING VENTURE. Take a look at page 3 think about scheduling an MET Neighborhood meeting or making a donation to become an MET Angel. You will be helping to grow ALL of Lifespan. The Only Constant is Change….. Please help us take the next steps in Lifespan’s future.

Fondly,
Peggy

We have talked about our MET program in many of our newsletters. On our website you can learn all about the program and hear from both our volunteers and our drivers. We launched our MET Angel campaign this summer because we need more MET Angels. So how do you become an MET Angel? Here’s how.

- Become a volunteer driver!!!!!
- Refer a friend who becomes a volunteer driver!!!
- Donate $50 to the MET program

You can see the list of MET Angels on our donation page.

Now we are taking things to a new level with our MET Pilot Project

BUILD AN MET NEIGHBORHOOD

Along with the belief that volunteer recruitment is key to the success of our MET program, we also believe that volunteers are more likely to help the folks closest to them. With that in mind, we are starting to create MET Neighborhoods. If you belong to various groups in your community who would like to form a Medical Escort Transportation Neighborhood—give us a call. How do you create an MET Neighborhood?

1. Have Zandra come and talk to a group in your community about our MET program.
2. Help us recruit volunteer drivers (or become one yourself) all around your neighborhood—talk it up.
3. Once we have screened drivers, help us get the word out that now we can take applications from riders.

VOILA! An MET Neighborhood is born!

If you want to help create the Atlanta you wish to grow old in and you know a group that would be interested in starting an MET neighborhood—call us at 404-237-7307!! We will be happy to come out and talk with your group and together we can determine how to build an MET neighborhood in your area. Or complete the form below, mail it in to us, and we will contact you.

Please come and speak to my group about MET
